

# N24 Cahir to Limerick Junction Project

## Introduction

Tipperary County Council, in partnership with Limerick City and County Council, Transport Infrastructure Ireland and the Department of Transport are developing the N24 Cahir to Limerick Junction Project. The aim of the project is to resolve the transportation issues identified within the study area and thereafter determine an appropriate sustainable solution which meets the project objectives.

## Project Progress Update

Phase 1, Concept and Feasibility for the project was completed in September 2020. This phase included our examination of the existing transportation network and the feasibility of potential transport solutions. The project is currently at Phase 2, Option Selection and the constraints study is underway. Further development of transportation solutions will follow the constraints study, which could include multiple route corridors. It is expected to have potential options identified in late Q2 2021.

## Consultation

The first non-statutory public consultation on 'Constraints' will take place between 27 January 2021 to 17 February 2021. The purpose of this consultation is to inform the public of the study area for the project, the key constraints identified to date and the programme for advancement of the project. Public consultation forms an important part of advancing the design process towards the development of transport options and allows the involvement of the public in identifying key constraints.

Due to COVID-19, Tipperary County Council is unable to hold a public consultation event in-person within the study area for the project. Instead, an online public consultation platform will be available on the project website ([www.n24cahirlimerick.ie](http://www.n24cahirlimerick.ie)) from 12 noon on 27 January until 17 February 2021 which will contain all the information that would normally be displayed at a formal in-person public consultation. This online public consultation platform will provide a virtual public consultation room and interactive maps with all the key constraints identified to date and an online feedback form for submission of comments or queries.

An online booking facility will be available on this public consultation platform where the public and other stakeholders can schedule an online or telephone meeting with a member of the project team during the consultation period.

It is understood that online information cannot be accessed by everyone, and notwithstanding the present COVID-19 restrictions, the project team is keen to engage with people throughout the consultation period. Hardcopies of brochures and feedback forms can be requested, and telephone meetings can be booked by calling a member of the project team on (061) 951000.

Submissions can be made using the online feedback form available on the project website [www.n24cahirlimerick.ie](http://www.n24cahirlimerick.ie), or by email to [cahirlimerick@midwestroads.ie](mailto:cahirlimerick@midwestroads.ie), or by post addressed to N24 Cahir to Limerick Junction Project, Mid West National Road Design Office, Lissanalta House, Dooradoyle Road, Limerick, V94 H5RR up until Wednesday 17 February 2021.

**Tipperary County Council values the opinion of the community on this project and welcomes feedback from the public and interested parties.**
